

Hydraroof Air Conditioning and Heating unit - Roof-mounted

Aircontrol no 1700353 24V

The HYDRAUROOF stand-alone compact air conditioning system with hydraulically driven compressor is easily installed in agricultural machines and public works vehicles.

The HYDRAUROOF brings together a condenser, evaporator, dehydrator, pressure safety switches and controls all in a single piece of equipment with a compressor driven by a hydraulic motor.

Option: The airfilter is a option

Details: Suitable for cabins up to 4 m³ in volume

Requires cutting the roof

Weight: 47 kg

- * **Hydraroof Dimensions** : 924 x 704 x 238 mm
- * **Weight**: 47 kg
- * **Cooling capacity**: 6,3 KW, + 43 gr C, 50 % humidity.
- * **Heating capacity**: 9 KW, - 15gr C , 40% humidity
- * **Electrical consump.** : 480 W; 20 Amp/ 24V
- * **Hydraulic Pressure** : 110 to 170bar
- * **Required flow**: 30 to 60 l/ min
- * **Airflow**: 820 m3/h
- * **Fits on most machines and vehicles**
- * **Agri - Offroad - Mining - Forestry - Railway**
